

GERMANY HAS FLYING WHALES

Huge Flying Monsters, Wonders of the Air, Conceived by Germans to Offset Tanks

FRENCH MAKE TWO SUCCESSFUL ATTACKS

Jackals and Hyenas Aid Carrion Crows in Picking Clean Bones of Slain Troops in Serbia

(By C. W. Ackerman, United Press Staff Correspondent.)

With Linsingen's army on Russian front—August 20, (by mail.)—Germany has added flying whales to her other new war wonders of the air. The new aeroplanes look like giant fish with double fins. They have four big eyes on each side. They have greater speed and more bomb carrying capacity and are quicker in action than any other biplane in Europe.

French Capture Trenches.

Paris, Sept. 21.—The French forces made two successful attacks north-east of Verdun last night, capturing two trenches south of Thiaumont and advancing one hundred yards in the Vaux Chaptre woods.

Bad weather has hindered operations on the Somme fronts.

Adopt Conscription.

Melbourne, Sept. 21.—The Australian house of representatives today adopted the conscription law by a vote of 47 to 12.

The wives and mothers of Australia will go to the polls in a few weeks to decide whether to send their men to the war. The house of representatives passed the bill calling for a referendum vote on the question of conscription. It is considered certain to pass the senate. "The women's vote will probably decide the question."

Devour Bodies of Slain.

London, Sept. 21.—Jackals and hyenas creep down from the mountains on the Serbian and Greek frontier at night to feast on the bodies of Serbian and Bulgarian soldiers who are killed in the fighting northeast of Lake Ostervo. The animals stripped the flesh from the bodies of 300 Bulgarian corpses which were piled in a heap in a ravine. Thousands of carrion crows and vultures pick the bones clean in the day time. The Bulgars are mowed down by machine guns in the attack during the day between the lines and when the Serbs advance they find only skeletons and bits of uniforms.

REGISTER THE AUTO

A city ordinance requiring the registration of every automobile in Chickasha is on file at the office of the city secretary and this will be rigidly enforced by the traffic officer in a short while.

This law requires that notice and number of all machines be handed to the city clerk and a record made of them. Neglect to do so may bring a fine to the unlucky owner.

No fee is attached to this and the number and make may be telephoned in to City Clerk Reynolds.

HOLLERS "HOOA HOOA" AND SCARES THE GERMANS

By United Press.

London, Sept. 21.—Investigation today of the German charge that "black savages" were aiding the English in fighting on the western front disclosed that one very large, black, fierce looking "savage," a British subject hailing from London, was instructed to put his woolly head over the parapet twenty times a day in twenty different places for twenty days, yelling on each occasion, "Hooa Hooa," or something like that. Naturally the Germans thought they were opposing a horde of savages and all the time the horde was scared stiff that he was going to get his head shot off.

BIG STRIKE HANGS IN BALANCE

Sympathetic Walkout of 500,000 Workers Depends on Call Which May Be Issued Today

NEITHER SIDE SHOWS SIGNS OF WAVERING

Unless Demands are Met Strike Will Be Called But President Shouts Says Interborough Stands Pat

By United Press.

New York, Sept. 21.—The traction strike situation is now approaching a crisis. This, the last day which the labor leaders have allotted the employers in which to accept the proposals of Mayor Mitchell for further negotiations, was ushered in with increasing violence and with no sign of wavering on either side.

Unless their demands are met union officials are prepared to call tomorrow for the general strike.

The sympathetic strikers will number 500,000 workers.

President Shouts of the Interborough today announced that the position of his company would not be altered under any circumstances.

FIRST AID TO INJURED EXPLAINED

Dr. Eric S. Green, who is in charge of Red Cross Car No. 1, and is making a trip over the Rock Island lines for the purpose of instructing employees and their families in first aid work, gave two instructive and helpful talks in Chickasha yesterday.

In the afternoon he lectured to about 250 men at the shops, and in the evening addressed an interested gathering in the lecture room of the car.

Dr. Green did not handle his subjects in a technical manner but simply and clearly that the laymen might receive the full benefit of his instructions. A part of his talk was telling the men what not to do as well as what to do. In taking up the treatment of wounds and the methods of controlling bleeding he was as explicit in his instructions not to wash out the wounds with water or to put unclean hands to the wounds, as he was in his direction for the proper application of first aid bandages. Also he told of the numerous articles such as matches, tooth picks and points of pen knives which should not be used in removing splinters from the eye.

The treatment of burns and fractures and how to put on splints was shown, and artificial respiration was demonstrated. The proper aid for sunstroke or fainting was an interesting part of the lecture and stress was laid on the correct methods of carrying the injured.

The lectures were made plain by practical demonstrations. Dr. Green asking several men from among his hearers to assist him. The lectures lasted only an hour and Dr. Green covered each topic fully instead of trying to talk on too many subjects. Concluding his advice Dr. Green explained that the purpose of first aid is treatment was just what the name implied and was only to be used until the patient could be turned over to a physician. Its object was to keep the injured man in the best possible shape until professional help could be obtained.

MOB HANGS MURDERER TO TREE

Batters Down Jail at Olathe, Kansas, When Sheriff's Wife Escapes With Keys Demanded of Husband

EX-CONVICT HAD KILLED MAN AND WIFE

Firemen Turn Hose on Mob but the Latter Threaten Death at Point of Pistols and Streams Stop

By United Press.

Olathe, Kan., Sept. 21.—Fifty armed men stormed the jail this morning and lynched Bert Dudley, who was convicted Tuesday of the murder of Mr. and Mrs. Henry Stilwell.

Sheriff Carroll was aroused at midnight and refused to give up the prisoner but a volley changed his mind. Meanwhile his wife had fled with the keys.

The mob battered down the doors, driving the firemen away with guns when the latter attempted to disperse them with streams of water. The attacking party then hanged Dudley to a telephone pole.

Dudley was an ex-convict and was given a life sentence because of capital punishment law in the state of Kansas.

PROS ASK WILSON FOR HIS VIEWS

By United Press.

San Francisco, Sept. 21.—The name of President Wilson was injected today into the state prohibition fight through the campaign for J. Frank Hanley and Dr. Ira Kandrich, prohibition candidates for president and vice president. Oliver Stuart, national campaign manager of the prohibitionists, telegraphed President Wilson asking him if the wets were representing him by including his name in the list of "eleven widely known Americans who favor temperance but oppose prohibition."

Hanley today scored Hughes for his silence on the liquor question.

CARE IN PICKING AND HANDLING COTTON UNUSUALLY PROFITABLE THIS YEAR

Washington, D. C., Sept. 21.—Cotton growers now have one of the best opportunities of many years to profit by increased care in handling their cotton, according to cotton growing and marketing specialists of the U. S. department of agriculture.

Care in picking, assembling and hauling seed cotton, and in ginning, as well as in the handling of the bales, may result in raising the selling value of the fiber materially. This is true every year. During the present season, however, the restricted crop and limited supplies at the mills, coupled with the steady demand, have sent prices to high levels, making the increase in returns to the grower for each higher grade proportionately greater. The advantages in receiving the highest possible grade are so obvious under the present favorable marketing conditions, that many farmers no doubt will adopt the more careful methods which make the higher values possible.

Ordinarily the matter of grades does not receive nearly enough attention. As a result, farmers lost several million dollars annually. This loss would be proportionately greater under the high ruling prices this year if there were no improvement in handling practices. In 1911 the average price of middling was 9.56 cents; in 1912, 12.26 cents; in 1913, 12.45 cents; in 1914, 7.94 cents; and in 1915, 11.99 cents. Middling is now selling around 16 cents.

23 STRUCTURES FOR CADDO CO.

Elmer E. Colby, highway engineer for Grady and Caddo counties, is crowded today in completing plans for twenty-three structures which will adorn the state highway in Caddo county. Nineteen of these culverts and highway bridge plans have already been completed and with the remaining four must be presented to the Caddo county commissioners on Saturday at 1 p. m.

These will form a part of the improvements on the state highway which has come into prominent notice since the recent revival of interest in good roads in Oklahoma.

NO COTTON PICKERS IN CHICKASHA

Daily Calls From Farmers for Field Hands Meet With No Response; One Man Applies for Pickers for Snyder

The demand for harvest hands still continues and cotton pickers are in big demand. This is also the case with cotton pickers with none to be had. Most of the negroes about Chickasha are already in the field but are distributed largely at points along the Mangum branch where cotton is more plentiful and where they have been going yearly. Daily demands are made on the Commercial and Farm Bureau for laborers. Secretary Erland of the Retail Merchants association, who is temporarily in charge of the bureau, stated this morning that from twelve to fifteen farmers applied for help yesterday and several have called today, one man coming from Snyder for cotton pickers.

RECRUITING WITH PHONOGRAPHS

By United Press.

Winnipeg, Man., Sept. 21.—Phonographic records of speeches by Premier Assiniboia and noted English leaders are being successfully used to recruit soldiers here.

DEMOCRATIC HEADQUARTERS AT THE FAIR

Oklahoma City, Sept. 21.—The Young Men's Democratic club of Oklahoma City has perfected arrangements whereby they will have a handsome and commodious booth in the administration building at the state fair at Oklahoma City, and every Democrat in Oklahoma is cordially invited to pay this booth a visit while at the state fair.

It will be fitted up to make it a rest room for the ladies, and a plentiful supply of Democratic literature will be on hand for distribution. These headquarters will afford a splendid opportunity for the Democrats from the different sections of the state to get together and discuss political conditions.

Every Democrat who visits the fair is urged to appear at this booth and sign the register, and enjoy the opportunity of meeting his fellow Democrats from other sections of the state.

DRIVES AUTO OFF BRIDGE

An elderly stranger, said to have been driving a new car from Oklahoma City to his home in Altus, drove it off a bridge a few miles north of Chickasha on the Pocasset road, yesterday evening. Passersby later saw the car fifteen feet below lying on its damaged top with the wheels up in the air. The driver was able to extricate himself and reach a nearby farm house, the farmer later bringing him into Chickasha for medical aid. Although not seriously injured the man was said to have been badly hurt on an arm and shoulder. The place where the accident occurred is a dangerous one, a washout cutting up the approach to the bridge.

WEATHER FORECAST.

For Oklahoma.
Tonight and Friday, generally fair; cooler.

PERSHING TO REMAIN IN MEXICO

Tentative Agreement by Joint Commission Provides for Liberal Share for Carranza in Protecting Border

MONSTER MILITIA PARADE IN EL PASO

26 Mile Column of Militia Guard Passes Review Stand in 7 Hours; 26,000 Men and 1,000 Wagons and Motor Trucks

By United Press.

New London, Conn., Sept. 21.—The joint commission is about to conclude its first task, that of settling the problem of border control. A tentative program provides that Pershing's forces remain in Mexico for the present, with the additional proviso that the Carranza states shall take over a liberal share of the work of protecting the border.

The entire plan will be submitted to General Bliss for approval.

Villa's recent activities will not substantially affect the situation.

Huge Military Parade.

El Paso, Tex., Sept. 21.—Militia guards, in a twenty-mile column, which marched through the city today, passed the reviewing stand at Fort Bliss in seven hours, being the biggest infantry division review ever held in this country. Twenty-six thousand men marched four abreast. One thousand motor trucks and wagons and 8000 mules were in the parade. It required hours for the artillery to pass the stand.

Hiking Guards Desert.

Austin, Tex., Sept. 21.—Eleven enlisted men of the twelfth provisional division, tiring of the hike from San Antonio to Austin, have deserted. Hunter came here on a freight train arriving here last night and was jailed. One became ill and was taken to the hospital. The others were sent to Fort Sam Houston this morning.
